

How staffing in your aged care facility should look* after 1 October 2024

The aged care sector continues to benefit from significant reform. Through strong advocacy, NSWNMA members secured Federal Government commitments for mandated minimum staffing levels in aged care.

From October 2024, all aged care facilities will have a **minimum 215 care minutes per resident per day** with **44 minutes provided by Registered Nurses** (10% of which could be delivered by Enrolled Nurses).
